The Fragrance List

(For your reference only-Please do not share on any public platforms)

Disclaimer: Our Fragrance oils are manufactured for and branded The Perfume People Ltd by independent perfumers. It has no association with / is NOT endorsed by any other brand. In order to give you an idea of the aroma [not being able to try before you buy/being an online store only] we use references to other scents already available on the market. This is done to show that our products have been produced taking some notes found in the compared scent as inspiration to produce our own aromas, but with an added touch. This is what makes our fragrances unique to The Perfume People Limited.

This list is updated monthly, so stock availability may vary. Please see the specific product page on the website for an updated stock status.

- To see entire collections click "[Collection codes](#)".
